

Willmar Fire Department

2006 Annual Report

Established in 1879

The Ins & Outs

The Willmar Fire Department is a paid-on-call department. Each member is issued an alert pager that notifies them when the department is needed for service. Firefighters are paid an hourly rate at 1-hour increments for fire calls and training.

The average years of service on the Willmar Fire Department is 14.12 years.

Rescue and Hazardous Materials services are provided by the department along with fire protection. The Technical Rescue Team (TRT) is compiled of 8 Willmar firefighters and individuals from the Willmar Ambulance and Kandiyohi County Rescue Squad. 5 Willmar firefighters, along with members from 7 other agencies form The Hazardous Materials Emergency Assistance Team (HEAT).

2006 Events

Pancake Feed

Each year the Willmar Firefighters' Association hosts an annual pancake feed during the Willmar Fests celebration.

National Night Out

The Willmar Fire Department participated in *National Night Out* on August 1st at Robbin's Island. We worked together with the Willmar Police Department, Kandiyohi County Rescue Squad, Willmar Ambulance and several other agencies. Firefighters conducted pumping demos and used a fire safety house to teach fire escape tactics.

Story Time at the Fire Station

On October 3rd, the fire department worked together with Willmar Early Childhood Coalition and the Police Department to host *Story Time at the Fire Station*. This event brought in over 700 children and their families for a meal, story, fire safety presentation and a visit by Sparky the fire dog. The book, *Tito the Firefighter* was read by Willmar firefighters in both English and Spanish. This proved to be a triumphant outreach to the Latino population. The organizations involved have expressed their desires to conduct a similar event in 2007.

Fire Prevention Week Open House

Each year during Fire Prevention Week the fire department hosts an open house. On October 10th, the community was given the opportunity to visit the fire station and learn about the fire trucks and fire safety. This continues to be a fun and worth-while event for children and adults alike.

Staff

The Willmar Fire Department is staffed by 3 full-time employees during regular business hours.

The Officers

The Willmar Fire Department Officers are appointed for 3-year terms by the Officer Selection Committee. The City Administrator provides final approval for each new appointment.

Officer positions require additional training compared to the firefighter positions as they may assume the role of safety officer or incident command during emergencies. Each truck responding to an incident must contain an Officer prior to departure.

They also assist the Fire Chief with day-to-day operations and help to keep the department running smoothly by providing an effective chain of command and disciplinary procedures. Budget preparation, incident data entry, pre-plan preparation and presentation, public education and departmental operations assistance are a few of their responsibilities.

Assistant Chief: Jeff Gilbertson

- Assumes command of firefighting activities in the absence of the Fire Chief
- Assists with fire investigations
- Assists in the hiring process
- Serves at the direction of the Chief for the establishment of the department rules and regulations
- Attends additional monthly meetings

Deputy Chief – Operations: Wally Klause

- Assists in the ordering and issuing of gear and equipment
- Assists in evaluation and planning of major equipment purchases
- Attends additional monthly meetings

Deputy Chief – Training: Frank Hanson (Through Feb. 2, 2006)

Gawin Kooistra (Feb. 3, 2006-Present)

- Establishes monthly training schedules
- Approves firefighters' outside training requests
- Assumes a key role in the orientation and development of new firefighters
- Attends additional monthly meetings

Captains: Mike Schroeder

Mark Thompson

Gawin Kooistra (Through Feb. 2, 2006)

Department Training

Full-department training is generally conducted the first three Thursdays each month. Firefighters work on a variety of subjects including CPR/First Aid, driving, search & rescue, ventilation techniques, pipeline safety, and several others.

During 2006, the department focused much of their attention on the National Incident Management System (NIMS) and fire apparatus operator training.

NIMS is a Federally-mandated program designed to teach standardized incident command procedures to emergency responders nationwide.

Members of the Willmar Fire Department received 40 hours of fire apparatus operator training thanks to the Assistance to Firefighters Grant awarded by the Federal Emergency Management Agency (FEMA). The course was followed by a State certification test administered by Minnesota Fire Service Certification Board. Those who successfully completed the exam are now certified Apparatus Operators.

Firefighters are given the opportunity to attend outside training classes. These are offered during the many Minnesota State Fire/EMS/Rescue Schools conducted by community and technical colleges throughout the year. This also allows the firefighters to meet their 12-hour school requirement placed on them every 3 years.

2006 Pre Plans

Pre Plans are conducted on various commercial and industrial properties throughout the Willmar community. These properties are researched by the firefighters and then presented to the department. The purpose of this is to inform and prepare the fire department members of the layout and other safety issues of each building. Key points that are often highlighted include: entrances and exits, fire alarm panel, any hazardous or combustible storage, mechanical and boiler rooms, and locations of post indicator valves and fire hydrants.

Pre Plans were conducted on the following establishments in 2006:

Hennen's Furniture

Women's Shelter

Kennedy Elementary

Lincoln Elementary

Home State Bank

Rice Hospital

Mills Auto

Willmar Municipal Airport

Affiliated Community Medical Centers (Skylark Center)

Infinia Health Care Center

2006 Rural Alarms

Any fire alarm outside the Willmar city limits is considered to be a rural alarm. A service contract exists between the City of Willmar and each of the townships noted below. After every rural alarm, the fire department Clerk-Typist submits a *Statement of Services Provided* to the City Clerk's office which is used to determine future contracts.

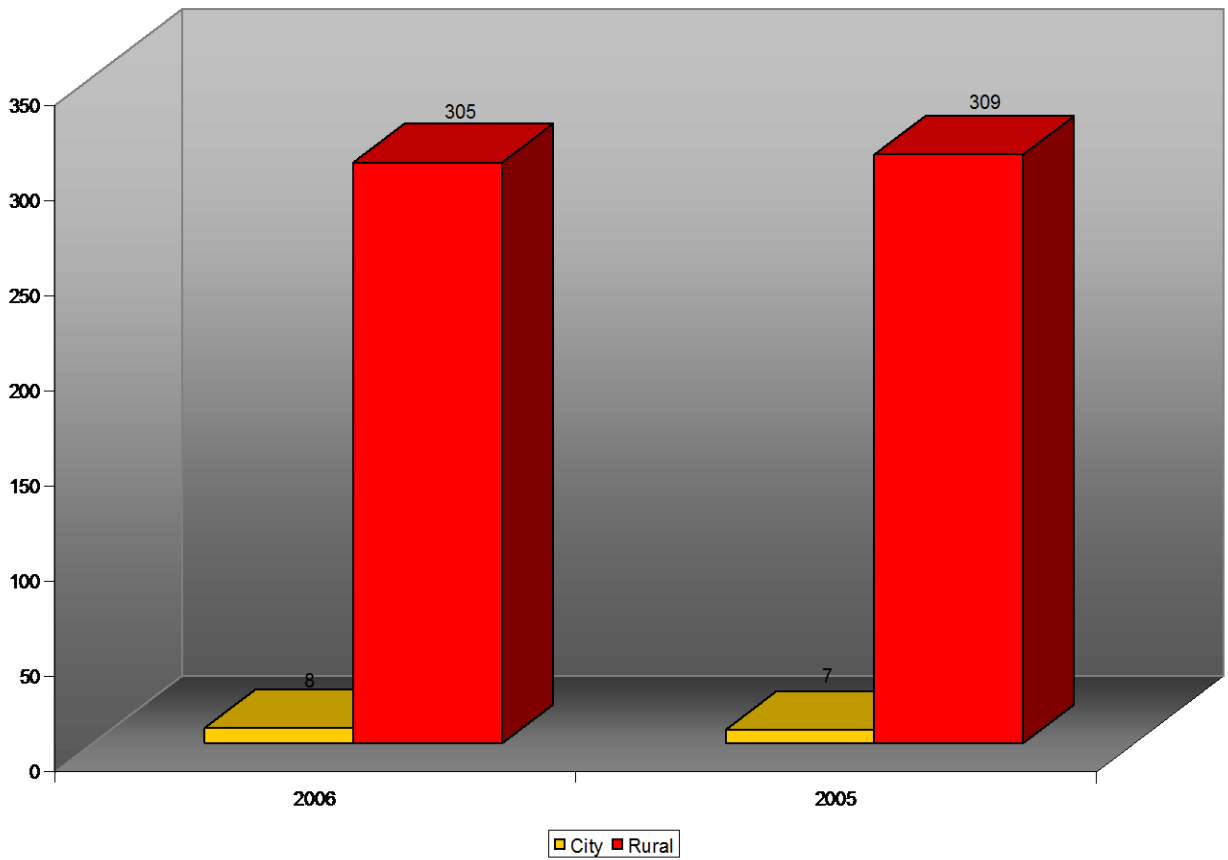

Listed below are the rural alarms that occurred in 2006:

2006 Mutual Aid

The fire departments of Kandiyohi County provide assistance to each other in the form of manpower and equipment. They refer to this as mutual aid. These requests are generally not billed out.

Reasons for requesting mutual aid:

- Excessive heat during the summer months
- The need for water
- The lack of manpower
- The lack of equipment
- The fire is just too big!

2006 False Alarms

Approximately one-third of our calls end up as false alarms, which is good news. The Willmar Fire Department allows 5 false alarms at each address per year (July 1 through June 30). Each additional false alarm costs the venue \$250.

Many false alarms are caused by faulty alarm panels and/or sprinkler systems. Often times, contractors and/or maintenance workers may cause an alarm to activate due to dust or smoke emissions. We do, however, experience several malicious false alarms each year. These are often handled by the Fire Chief with assistance from the Willmar Police Department.

The year 2006 brought 134 false alarms, with 5 being billed and 5 suspected of being malicious alarms.
